

Security Risk Assessment (SRA)

Security Risk Assessment (SRA) is the fundamental to the security of any organization. It is an effective measurement to prevent breaches, and keep your company's name from appearing in the spotlight for all the wrong reasons. The report from SRA is to assist the management to take decisive action to reduce the organization's threat surface.

Target Audience:

Management level or staff authorize by management

SRA Objectives:

- To increase the awareness of the company current practice in information security
- Easier understanding from the tabulation and images to showcase the SRA report
- Benchmark of the company's position against the other companies of same sector
- Recommendation of solution to improve information security

SRA Process Flow:
